PROFESSIONAL SUMMARY

Results-driven WordPress Developer with 4+ years of hands-on experience building, customizing, and optimizing WordPress websites for diverse clients. Proficient in PHP OOP, WooCommerce, Elementor Pro, REST APIs, custom plugin/theme development, and PSD/Figma-to-WordPress conversion. Adept at delivering pixel-perfect, performance-optimized websites with clean, maintainable code. Strong communicator with proven ability to manage client projects end-to-end.

WORK EXPERIENCE

Santushti Infotech

WordPress Developer 2025 – Present

- Developing and maintaining WordPress websites using Elementor Pro, WooCommerce, and custom themes.
- Building custom post types, taxonomies, and advanced custom fields (ACF) for dynamic content management.
- Integrating third-party APIs and plugins to extend website functionality as per client requirements.
- Collaborating with design teams to convert Figma mockups into fully functional WordPress sites.
- Building and customizing websites on Shopify, Webflow, Framer, Squarespace, and Wix for clients.
- Developing multilingual websites and implementing language-switching functionality for international clients.
- Setting up e-commerce stores and landing pages across multiple website builders to meet client requirements.
- Performing website performance audits and implementing optimization strategies.

Guru Technolab

WordPress Developer 2023 – 2025

- Designed and developed responsive WordPress websites using WPBakery Page Builder and Elementor Pro.
- Developed custom WordPress themes and page templates using PHP, HTML, CSS, and Bootstrap.
- Handled PSD-to-WordPress and Figma-to-WordPress conversions with high fidelity.
- Built and customized WooCommerce-based e-commerce websites for clients across multiple industries.
- Implemented WordPress Hooks (actions & filters) for custom functionality without modifying core files.
- Managed WooCommerce stores including product setup, payment gateways, and order management.
- Created custom HTML templates and integrated Contact Form 7 and Advanced Custom Fields plugins.
- Troubleshoot and resolved cross-browser compatibility and plugin conflict issues.
- Participated in client project discussions and translated requirements into technical solutions.

DM Weboft LLP

WordPress Developer 2022 – 2023

- Started professional career building WordPress websites using Elementor Pro and page builders.
- Assisted in PSD-to-HTML and PSD-to-WordPress conversions for client projects.
- Gained hands-on experience with WordPress core, themes, plugins, and basic PHP customization.
- Supported senior developers in troubleshooting and QA testing of web projects.
